04 Evidence Canvas

GROUNDING DI ENVIRONMENTAL ASSISTANT

From inputs to an accountable state.

Ask naturally. The assistant explains server-owned product receipts, invokes only allowed deterministic controls, and preserves every hold.

TWO PRODUCTS ONLY SOURCE AUTHORITY UNVERIFIED EXTERNAL RELEASE DISABLED

01 Inputs Committed or synthetic only 02 Assessment Server-owned formulas 03 State HOLD until source evidence resolves 04 Record Hash-bound audit / replay

GROUNDING DI ENVIRONMENTAL ASSISTANT

Select DI Weather Station or HazardWise, connect an authenticated session, then ask what can run or why a state is held.

PINNED EVIDENCE CONTEXT

PRODUCT	VIEW	AUTHORITY	RELEASE
DI Weather Station	Frozen record canvas	Unverified	Disabled

Visual cards describe committed or captured evidence only; they are not a live map, forecast, or alert.

Open Weather evidence canvas ↗

Ask what this product can run, why it is held, or request a synthetic control...

Connect an authenticated session to begin.

Ask assistant ↗

SELECTED CONTEXT

DI Weather Station
